Surveying Academy

Runs National

The Surveyor's Academy has been developed to train the next generation of technical surveyors, whilst preparing them for further tertiary education. The Academy is an industry-based vocational education institution that has been developed by surveying professionals. At the Surveyors Academy, quality education and skills are taught to the standard that meets the industry's needs. The Courses are delivered by qualified Trainers and Assessors around Australia. The Academy will deliver to industry-skilled and qualified graduates, the Certificate IV in Surveying and Spatial Information and Diploma of Surveying available all across Australia. The Academy is open to anyone with a grade 10 certificate; however, full-time availability and Industry experience are needed as you are required to work at a Surveying Firm to enroll.
